The Mall Exhibit

On 19-21 August 2011, GSIC head office in Cebu City, Philippines had an exhibit at the Ayala Center Cebu. The 3-day experience proved that a good number of Cebuanos are very interested in pursuing careers in various industries through further education – culinary, IT, health, engineering, business, accounting and many others.

The event, the kick-off of GSIC's Study in New Zealand Roadshow, provided a venue for many individuals to learn more about New Zealand, with focus on the courses and programmes various schools are offering. Apart from the information materials that visitors to the booth were able to readily take with them, a remarkable number of individuals requested for more understanding of the education pathway which staff of GSIC-Cebu were more than happy to share.

To GSIC team, it was a confirmation that the need to reach out to as many Filipino professionals and to share the benefits of studying in New Zealand is necessary. We take pride in being the first and only company that has delivered this opportunity to Cebuanos. As a result, we are convinced that delivering the same event sometime in November 2011 should be in our list of activities. Watch out for information on this, real soon.

Alternatively, call us or visit our office. GSIC shall be more than pleased to share information on Study in New Zealand.

1:00pm

22 Oct 2011 – GSIC Cavite
Island Cove Hotel and Leisure Park
Binakayan
Kawit, Cavite
1:00pm

The Seminar

Cebu Grand Convention Center was the venue of the Study in New Zealand seminar on 27 August 2011. Around 150 individuals attended the event taking with them the all important knowledge about New Zealand, and the opportunity the country offers to International Students.

Graeme Rennie, International Manager of Waiariki Institute of Technology (Rotorua, New Zealand) gave a talk on the relevant courses and programmes that his polytech offers, clearly the attendees recognized that the choices are almost unlimited in terms of strengthening and enhancing opportunities through further education. As a result, many questions were raised and addressed positively clarifying the study pathway.

The General Manager of GSIC, Joel Angon, presented the Immigration Process. As a Licensed Immigration Adviser of New Zealand Immigration Adviser Authority, he provided and shared the necessary procedure, requirement, steps and policies associated with studying in New Zealand. The GM's presentation centered around an "easy-understanding" of the rather technical and oftentimes confusing process associated with studying and immigrating. The result, higher interest, better understanding and positive decision from among the attendees. As expected, many have scheduled a visit to GSIC office for further information which will lead to signing up to become the next International Students that GSIC will represent to schools in New Zealand.

New Policy on NZ International Students Taking Effect on April 2012

A change in policy affecting international students will take effect on April 2012. We encourage everyone who are looking at New Zealand as a study destination to see us for further information.

In general, students who will enroll before the new policy comes into effect will not be affected.
